PROFILE

Computer Science undergraduate focused on Cybersecurity and Full Stack Web Development with hands- on experience in penetration testing, vulnerability assessment, and building secure web applications using Python and JavaScript

EXPERIENCE

05/2025 – 07/2025

IoT Intern
Jawaharlal Nehru University, New Delhi

- Developed password strength checker web application using HTML, CSS, JavaScript
- Implemented secure password generator and OTP simulation module
- Performed real-time password security evaluation to detect weak credentials
- Applied secure authentication and cybersecurity awareness concepts

EDUCATION

2023 – 2027

B.Tech - Computer Science & Engineering
JK Lakshmipat University, Jaipur

2013 - 2022

Senior Secondary (CBSE)
Army Public School, Kota

- 89%

SKILLS

Programming
Python, C, SQL, JavaScript

Security Tools
Nmap, Wireshark

Web Development
HTML, CSS

Operating Systems
Linux (Kali Linux), Windows

Cybersecurity
Network Security, Threat Detection, Vulnerability Assessment, Ethical hacking Fundamental

Networking
TCP/IP, OSI Model, Subnetting, DNS, HTTP/HTTPS

Database
MySQL

INTERESTS

- Cybersecurity
- Penetration Testing
- Web Development
- Network Analysis

PROJECTS

Web Penetration Testing Tool

- Built Python & Flask based web vulnerability scanner for security auditing
- Implemented crawling, port scanning and HTTP header analysis modules
- Generated automated vulnerability reports
- Integrated Google Gemini API to provide remediation and secure coding suggestions

Spam Email Detection using Machine Learning

- Developed spam classifier using TF-IDF, Naïve Bayes and Logistic Regression
- Performed preprocessing: tokenization, stop-word removal and feature extraction
- Evaluated performance using accuracy and precision metrics

Student Credit Card Management System

- Developed secure financial management system using Python & MySQL
- Implemented authentication, transaction tracking and card blocking features

Data Science Project - SDG 7 Clean Energy

- Analyzed renewable energy adoption trends using statistical and ML techniques
- Visualized insights using Python libraries

CERTIFICATIONS

- Red Hat System Administration I (RH124)
- Python Programming
- Risk Management for Cyber Security Managers
- Spark Fundamentals I
- Introduction to Cybersecurity
- C Programming
- Governance, Risk, and Compliance
